110 S 2nd Ave Kearney, NE 68847
Hampton Inn (308)234-3400
507 Talmage St Kearney, NE 68845

DELIVERY

Free delivery to Nebraska, surrounding states and
Oklahoma. \$100 For states outside of those included except
international which we will help coordinate. There will be
\$100 cash for each bull loaded sale day.

SIGHT UNSEEN GUARANTEE

If you are unable to attend the sale, we will gladly visit with
you to discuss your sire requirements and together select
bulls that meet your needs. If you are not satisfied upon
delivery, you don't own the bull.

EPD'S

EPD's listed in the catalog are the most current bolt EPD's
per breed association. All bulls have been genomically
tested.

TERMS + CONDITIONS

Cattle will sell under the standard terms + conditions of
their respective breed association. J6 Farms is retaining in
herd semen use on all bulls at buyer's convenience and our
expense unless otherwise noted or announced sale day.

When I sat down to write this letter last year, I could never have imagined what we would go through in 2020. All of the tragedies of a global pandemic have helped us to realign our priorities in a world that is both more disconnected and connected than ever. As farmers and ranchers, our day to day continued unabated when the rest of the world seemed to stop. The corn still needed to be planted and harvested, the cows taken out to grass in the summer and stocks in the fall, then brought back in to calve in the winter.

We are so proud to present these cattle to you. I truly believe this is the best batch of bulls we have offered so far and our commitment to the cowboy kind of bull really shines through. This group of Red Angus, Limousin, and Angus bulls all exemplify the best of their breed, with the top end of each breed being competitive with any bull in the nation. We have a bull here to fit every cattlemen's needs, from the commercial breeder looking to add pounds to their bottom line to the purebred breeder looking to expand their genetic profile. Not only do we select bulls on phenotype and EPDs, but docility is a major factor in which bulls make the cut.

This year we have an excellent group of registered replacement heifers along with an outstanding set of black and black baldie commercial heifers bred to our own herd sires. These are females that will produce calves that will contribute excellence to your own operations. We aren't selling any open heifers this year in order to focus on offering a strong bred heifer sale.

While 2020 was a year of turmoil and change, it was also a year of lots of love at J6! Our herdsman, Mark Blake, married Erin in April. My son Edward Spencer married his new wife Sarah in December, and we will be adding Brandt to our family in April of this year when he marries our daughter Margaret. Tish and I are delighted to see our family continue to grow as the years go along.

Thank you for your interest and continued support of our operation. We always keep our customers front of mind when making breeding decisions in order to offer the best cattle we can produce. We look forward to talking with you over the next month and seeing you at our sale.

Let's keep feeding the world together,
David and Tish Spencer – J6 Farms

The J6 Farms operation is deep rooted and here for the long haul and I am excited to be a part of it! I look forward to helping along the way with promotions and to get the word out on this exciting set of herd bull prospects and top-end bred heifers. David, Mark and I work incredibly well together because we are all like minded and want to bring the best we possibly can to offer to the public. With all the high input costs they have shifted their gears to punch as much efficiency and ease of fleshing into their seedstock as they can without sacrificing overall performance to mash the scales. The bulls this year represent the direction they are going towards. Bulls that are geared for profit and loaded with muscle, structural soundness, along with body mass and deep rib shape. I have been in the cattle business my entire life and was lucky enough to be raised on a ranch. I've learned over the years all the ups and downs and I have also managed large 4,500 plus registered and commercial ranches. That being said, I'll do my best to help you in any way possible on finding the right bull or kind of bull to fit your program. I am really excited about this journey with J6 Farms and if you have any questions about the bulls or bred registered/commercial heifers don't hesitate to give myself or any of the sale staff a call.

Mike Marlow

'Maple Road' has truly been an efficient, easy fleshing powerhouse converter from the beginning with an average daily gain of nearly 5.0 lbs per day (4.97). With his massive rib shape and level top-line and hip, we decided to showcase these sons of the Balance King WEBR Maxed Out 627. He is the future of the J6 program. '627' has went over and beyond our expectations producing the 'Cowboy Kind' herd bulls and as efficient as you can make them daughters and sons that thrive on pasture and explode in the feed yard. Investing in these genetics will definitely take you to the next level of low input high gain Seedstock. Again, study the type and kind of Maple Road, mass, volume, along with his overall completeness, we call him Herd Bull Status.

"141H" is a must see powerhouse beef bull loaded with muscle that carries across his top, hip and down through his lower stifle muscle. Along with an overall balance and extreme eye appeal, '141H' has an explosive amount of rib shape and spring of rib that I call a fuel tank. A true efficiency stud that will definitely add value to his progeny.

Maxed Out is a changer in one generation, tried and true as they come. '627' has made important improvements like added efficiency which is lower input offspring. Produces the ultimate maternal female that excels on forage along with total overall design. Perfect udder quality and attachment, with long level hips, with a quality solid foot. His sons excel for performance and added muscle, with a load of volume and rib shape to keep their condition while breeding cows, with excellent scrotal circumference.

Another member of this incredible flush of Mann Red Box 55C by Six Mile MS Extra 514B. '192H' caught my eye from the first time I laid eyes on him, this stud is very uniquely made with an extra punch of eye appeal, perfect in his balance, and absolutely amazing level top-line. '192H' carries himself proudly and has an extremely clean smooth front one third. Whether you're wanting to produce show heifers or the front pasture kind this stud fits the bill.
